We must realize that our nation faces an entirely new threat framework and if we plan to win this struggle we must invest both human capital and infrastructure in this

They can provide us with insight into a world whose stated goal and intention is the destruction of the United States and we ignore such a valuable resource at our own peril.

JS 1.4(a),(g)+ S US.(.55266)(S) OSD 1.4(c)

Current military operations necessitate greater capacity overall; a medium security facility might be built for much less \$\$\$. Building a medium security camp would envision more communal living arrangements for final decision on transfer recommendation.

 Require expanded capacity to allow for maintenance plan – units completed a few months ago are already rusted by heads & sinks. The exterior of all the general population facilities is also degraded. The overcrowding restricts the ability for easy maintenance.

POLICY: TRANSFER & RELEASE

 Observations: Transfer/releases have not occurred
 Assessments at GTMO set the pace

 Risk assessment/management is key to successful transfer policy implementation

 Recommendations:

 DOD should evaluate law enforcement assessment criteria, provide standard of investigation

•The delay in the transfer/release assessments by law enforcement is directly related to law enforcement's inability to adequately assess the prosecutorial value of individual.

•A stated prosecutorial strategy, which speaks specifically to coordination with DOJ would allow all prosecutors, both at DOD and DOJ, to focus on the cases they will handle in the forum for which they are responsible. A lead prosecutor would implement the overall strategy, to facilitate prioritization of existing criminal cases, and to direct the transfer assessment by determining which cases have no

prosecutorial value. Prosecutors could more quickly dispose of cases resulting in plea bargains (e.g. Walker-Lindh)

(or other formalizing organization) would formalize the efforts of non-DOD players

Interagency participation is required in detainee operations not only in broadly protecting US national security interests but also on how to use foreign delegations and who to retain in US control.

reality, at the lowest level all GTMO players report excellent cooperation.

POLICY: PUBLIC POLICY PLAN Observation: Currently no USG Public Policy Strategy exists. OSD-PA, SOUTHCOM-PA, JTFs all operate independently with no overarching strategy.

#### Recommendations:

- OSD-PA lead effort in coordination with Joint Staff and SOUTHCOM staff to construct "USG Public Diplomacy Strategy"
- Protect detainee operations
- Build responses to potential scenarios

- No guidance to SOUTHCOM from Higher
- Combat Camera/OSD-PA problems

- Need a nested overarching strategy which incorporates all aspects of public policy, media, and detainee operations
  - ·Hurricane, Natural disaster, detainee death, enemy attack, accidents

This observation boiled-down to one issue—the senior manager of the interrogation element did not have the authority that he required to accomplish the mission

The nests tasking review and assignment, in the element that can most quickly and authoritatively

This saves time and also results

Tasking

rejection/acceptance authority is now in SOUTHCOM J2.

Army has the responsibility to fund interrogation operations.

Reportedly Army Intelligence Command encountered coordination issues within the Army General Counsel's office that delayed provision of ICF to Per the General Counsel, 27/1440 Aug, the issue is resolved. Army INSCOM was developing procedure on how to disperse and account for GTMO ICF. Because no funds have been received by this observation should be continued until verification—is received that actually receives ICF. Recommend withdrawal of this observation upon when funded.
